PROFESSIONAL EXPERIENCE

3/2004 - Present – Western Engineering Consultants, Inc. - CAD Technician

Provide drafting of plans to assist engineers.

1999–2003, 1981–1995 - Rocky Flats, Golden, Colorado – Planning Analyst

Implemented and provided training and guidance to Planning Analysts as Lead Planner. Researched and wrote work control packages for maintenance, construction and demolition (D&D) to incorporate quality assurance, safety requirements and the resources to complete engineered projects, including sketches using AutoCad 2000. Wrote Davis–Bacon Determination estimates and served as a technical advisor and project coordinator when required. Performed duties as Apprentice Coordinator and Instructor.

1998-1999 - Rocky Flats, Golden, Colorado - Facility Planner

Converted maps and records from manual maintained, paper based form to computerized interactive databases. This process entailed placing the graphic detail, adding intelligence to the graphic detail, and correcting errors in the source material.

1995–1998 - Rocky Flats, Golden, Colorado - Area Building Coordinator

Performed duties of Shift Manager as needed. Performed duties as Lockout/Tag Out Manager to facilitate maintenance of facilities. Interfaced with Building Coordinators to facilitate and repair building deficiencies and safety concerns. Provided technical assistance and control of work effort as Contact Technical Representative for contracted services. Provided oversight of Building Coordinators to ensure operations within the assigned facilities are conducted as set forth by the Facilities Operations Manager.
